

Mrs. McDonald - 7th Grade Science

Week of May 4 (Week 7)

This week in science... 1 graded assignment this week and the tasks will improve your understanding but are not graded. This week's graded assignment is the Evolution Unit assessment. I am going to open it up on Monday and it will remain open until Sunday night. The tasks will help you prepare for the assessment. Email me a list of the assignments you finished during our catch-up week. I will not be accepting work for this unit after Sunday night in order to move on to our next unit... Ecosystems. See y'all soon! ~Mrs. McDonald

Assignments earn a grade and are required. **Tasks** are part of the learning process but not graded. Grades are updated in Gradespeed.

How to get credit for science activities:

Discovery Education:

Step 1: Go to Digital Resources - Discovery Education - Assignments - Pick the one with the title in the assignment.

Step 2: Watch video and when you have finished the entire video mark as complete in Discovery Education.

Step 3: Mark the assignment as complete in our HUB Course for you to keep record of what you have completed.

TEDEd:

Step 1: Use link I provided in the activity instructions to watch video.

Step 2: Sign in to TEDEd with your first and last name in order to get credit.

Step 3: Take quiz as many times as needed to get your highest score.

Assignment 1

Evolution Assessment (HUB Course - Week 7 - Evolution Assessment)
Assessment opens Monday and closes Sunday. 3 attempts and highest scores counts. Do your best!

Task 1

Amoeba Sisters - Natural Selection Video
<https://www.youtube.com/watch?reload=9&v=7VM9YxmULuo>

Task 2

Amoeba Sisters - Speciation Video
<https://www.youtube.com/watch?v=udZUaNKXbJA>

Task 3

What is Evolution Video
<https://www.youtube.com/watch?v=GhHOjC4oxh8>

Task 4

Study your Evolution notes and vocabulary. You could make flashcards or use online flashcards. Begin finding ways to study that works best for you. Check out BrainPOP for a fun review.
